

What's in the Box

Please read each step before you attempt to set up. Save these instructions for future reference.

- 1 - 3.0 x 3.0 Frame Fully Assembled
- 1 - Polyester Top
- 1 - Carry Bag with Instructions Sewn On
- 4 - Piece Stake Set

How To Set Up

Note: First Time Attachment Is Required

Top and frame are shipped unattached to avoid damage. A first time set up requires that top be bolted on to the frame. This first-time set up takes longer than 60 seconds. Once top is permanently attached to frame, set up and take down are easily accomplished within 60 seconds.

1. Place your E-Z UP® frame in the center of area to be shaded. With partner on opposite side, grasp outer legs, lift off the ground, and step backwards - stopping at full arm's length - approximately 3/4 it's total size.

2. Gently unfold the fabric top and place it over the open frame.

3. Attach the top to the E-Z UP® frame by matching the loop fastening strip on the top with the hook fastening strip on the frame. Pull the corners down fully. Push the hook and loop firmly together at each corner.

4. To secure the top to frame, line up grommet holes on valance with the four bolts on frame.

5a. With wrenches provided, remove the nut from each bolt (one at a time) and pull bolt out completely while holding the trusses, black washer spacer and angle bracket in place. Place top grommet hole in-line with the parts that you are holding and slide bolt through all parts.

5b. Put nut back on bolt on the inside of the trusses. Tighten nut so it is snug and the grommet can still rotate without a great deal of free play.

6. Grasp the bottom of the diamond, on opposite sides. Lift up and step backwards until shelter is fully opened, being careful not to pinch fingers.

7. Engage the auto slider at each corner by pushing up with one hand while holding down the top of the leg with the other hand. The snap button will engage the hole. Then pull down the hem of the top. Repeat at all four corners.

8. Lift up two adjacent outer legs and slide out the inner legs until the snap button locks. Repeat on the opposite legs - make sure to do two legs at a time.

Note: Once top is permanently attached, only perform steps 1, and 6 - 8 to set up.

How To Take Down

1. Slightly lift up two adjacent outer legs, depress the snap button, and telescope the inner legs up into the outer legs. Repeat on the opposite legs - making sure to do two legs at a time.

2. Release the auto slider at each corner by reaching up under the hem and pushing the framework up slightly with one hand, while using other hand to depress and release the snap button. Repeat on all four corners.

3. Grasp the top diamond on opposite sides by "close" sticker. Lift the shelter up slightly and shake it while stepping towards your partner until the unit is 3/4 closed. With each partner grasping two outer legs, push frame together to fully close it - Be careful not to pinch fingers. Store frame in carry bag.
